01 · OVERVIEW

Your time for patients... not paperwork.

AntA Care is an Arabic-first system for clinics and medical centers. It connects everything around the patient in one journey instead of scattered files and spreadsheets. It works 100% offline, stores patient data locally, and lets you host it on your own resources with access for up to 6 locations free of charge.

03 · BEFORE VS. WITH ANTA

What actually changes

BEFORE	WITH ANTA
Scattered paper files and manual searching	An organized digital file opened from the visit screen
Relying on what the patient remembers	Visit and test history saved and linked to the file
An unmanaged waiting queue	A queue per exam room and one-tap next-patient call
Doctor accounts exposed or late	Commissions and profits auto-computed and protected
Reports manually compiled at month-end	Branch-level analytics and printable reports ready

04 · THE DAILY WORKFLOW

One natural path

Each step feeds the next — from registering the patient to reports and analytics.

01 Register patient data

02 Create appointment booking

03 Patient arrives

04 Patient gets their turn

05 Carry out the visit

06 Prescription and follow-up

07 Billing and payment

08 Reports and analytics

05 · ROLES AND TASKS

Every role has its own tasks

06 · WHY ANTA

Offline security. Online intelligence.

AntA Care is hosted on your own resources and keeps working when the internet doesn't. When you need analytics, remote access or integration, switch online — on your terms, never as a condition of the software working at all.
